BAUMHOFF SPEAKS OF HIS RESIGNATION.

Tells a Business Man That It Will Be Tendered to Transit Directors February 1.

NONCOMMITTAL TO REPORTER.

Will Neither Affirm Nor Deny the Statement—John Grant Probably Will Assume the General Manager's Duties.

According to a statement made by George W. Baumhoff to a prominent St. Louis business man yesterday his resignation as general manager of the St. Louis Transit Company will be tendered to the Board of Directors on February 1.

The statement that he was to resign was elicited from Mr. Baumhoff through a request that was made of him. The business man has property south of Carondelet, and is interested in the extension of one of the Transit Company lines. He called on Mr. Baumhoff at his office yesterday morning to confer with him about the matter and said that he was willing to give the company a right-of-way through his property. It was then that Mr. Baumhoff said that the matter would be out of his hands after February 1, as his resignation would be forthcoming on that date.

The conversation was repeated later in the day by the business man to some friends who are also interested in the building of an electric railway in the vicinity in question.

John Grant, the new official from Indianapolis, according to Mr. Baumhoff, will assume charge of his duties either to-day or to-morrow.

Mr. Baumhoff seemed somewhat surprised last night when told by a Republic reporter that his statement to the business man had become public.

"That is a matter that I cannot discuss," he said.

"But will you either affirm or deny that you made this statement?"

"As I said, I cannot discuss the matter. When I am ready to make a statement I will make it over my signature, so that it will not be misquoted."

It was suggested that it was a good time to make the signed statement then and there, but Mr. Baumhoff pleaded lack of time.

"You would not publish Queen Victoria's death before she died, would you?" he asked. "I will not publish the resignation of a presidential candidate before it occurred, would you?" And then Mr. Baumhoff asked questions about the World's Fair in reply to a reporter's question about his resignation.

A joint resolution was introduced exempting from taxation for a period of ten years all factories of any kind now in course of erection or to be erected in Texas between now and the close of 1903.

A bill was introduced providing that no insurance contract shall be held void because of immaterial misrepresentation made in the application therefor or in the contract of insurance, and providing that no defense shall be valid unless the defendant shall show on the trial that within reasonable time after discovery of the falsity of the statement so made he has been insured, if living or if dead, to the beneficiaries of said contract all premiums paid thereon together with legal interest, and give public notice that it refused to be bound by the contract or policy.
